Adding a 3D Solid to the User Catalog

Reference Number: **KB-00035**
Last Modified: **November 12, 2026**

QUESTION

I have created a custom shaped 3D Solid and would like to add it to the library browser so that I can use it in future plans. How can I accomplish this task?

ANSWER

A 3D Solid can easily be added to the User Catalog by using the Add to Library edit tool.

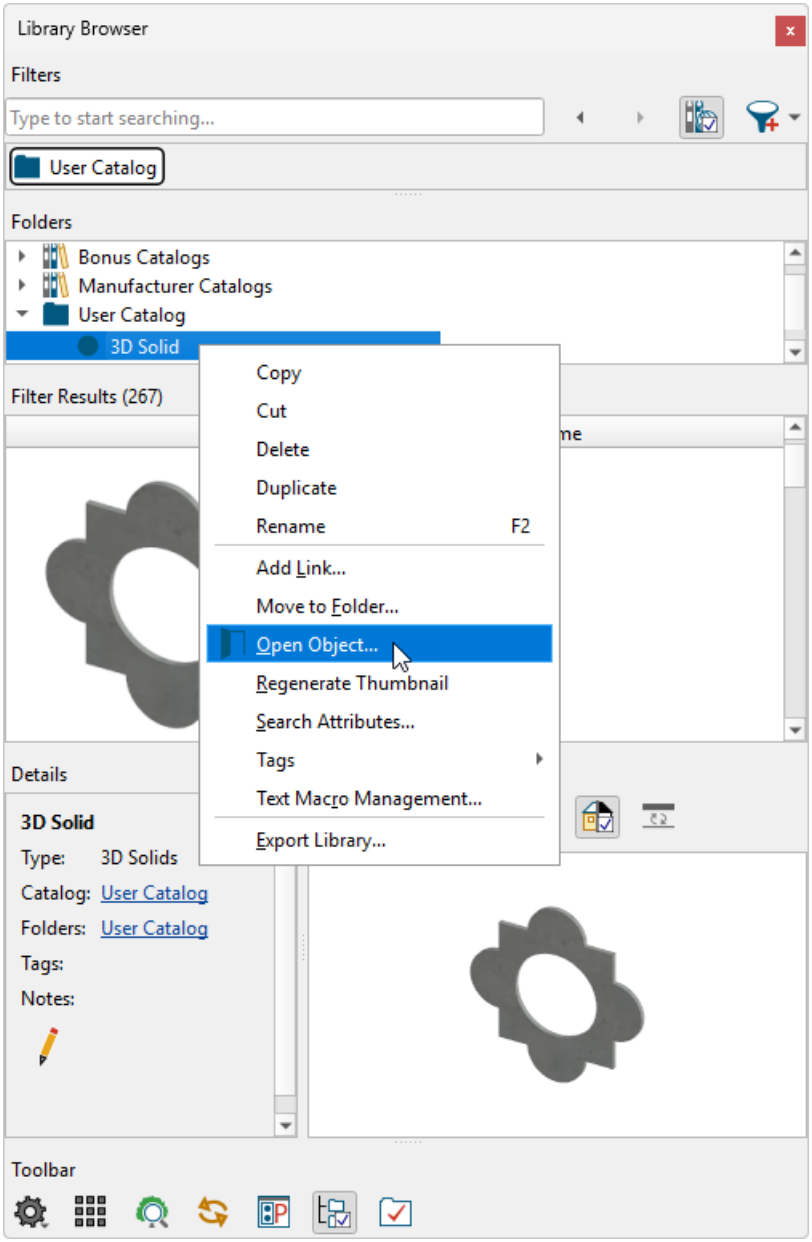

To add a 3D Solid to the User Catalog

1. Using the **Select Objects** tool, click on the 3D Solid that you want to add to the User Catalog.

2. With the solid selected, click the **Add to Library** edit tool.

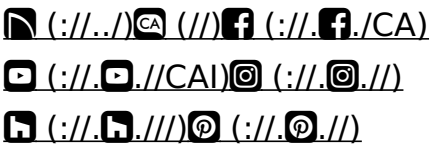

3. The solid can now be found in the User Catalog and can be edited at anytime by right-clicking on the object's name, and selecting **Open Object** from the contextual menu.

> **Note:** On a Mac, hold down the Control key while clicking to initiate a right-click command. More information about right-click commands on Apple input devices can be found in the following Apple resource: Right-click on Mac (https://support.apple.com/guide/mac-help/right-click-mh35853/mac#).
