The information in this article applies to:

QUESTION

I would like Chief Architect to default to a specific folder on my local machine's hard drive when opening files. How do I do this?

ANSWER

In Chief Architect, you can specify the location on your computer that the program opens when a plan or layout is either opened or saved using Save As.

The method of specifying the default Open and Save As directory in Chief Architect depends on the version being used.

Working on files over a network server, external hard drive, or USB flash drive device is not supported as this can lead to file corruption and data loss.

To change the default Open and Save As directory

- Select Edit> Preferences pref
- 2. Click on the NEW PLANS panel, and in the lower right side under the **Open and Save As** section, you have two options:

Preferences		×
✓ Appearance	New Plans and Layouts	
Colors	U.S. Units	
Font	Plan Template:	
Library Browser Text	Residential Template.plan	Browse
✓ General	Layout Template:	
File Management Folders	ArchD 24x36 Layout Template.layout	Browse
Ruby	O Metric Units	
New Plans	- Plan Template:	
Unit Conversions Time Tracker	Residential TemplateM.plan	Browse
Architectural	Layout Template:	
⊂AD ✓ Edit	ISO1A 594x841 Layout Template.layout	Browse
Behaviors Snap Properties	Open and Save As	
✓ Materials List	Use Last Folder	
Report Style	Use This Folder	
Master List	C:\Users\ioshua\Documents\Projects\Smith Revision\	Browse
 Render Ray Trace 		bionsem
Video Card Status		
Reset Options		

- Use Last Folder instructs the program to open the last directory or folder used when File> Open Plan , File> Open Layout or File> Save As was used.
- **Use This Folder** instructs the program to open a specific folder, as specified by the user. When **Use This Folder** is selected, the path name field and **Browse** button become active to allow the user to either type or Browse to the location they wish to set.
- 3. Click the **Browse** button to open the **Select a Plans Folder** dialog.
- 4. Browse to the location on your computer where you would like Chief Architect to refer every time you select **File> Open Plan**, **File> Open Layout** or **File> Save As** from the menu, then click **Select Folder**.

5. Click **OK** to close the dialog and apply your change.
