QUESTION

How can I place special characters in my text, such as the degrees (°) symbol?

ANSWER

There are several ways to add special characters to your text. In this article we will cover a few of them.

To insert special characters in Chief Architect

1. Select CAD> Text> Rich Text \P from the menu.

Special characters can also be added to standard text.

- 2. Click anywhere in your plan to place the text object and open the **Rich Text Specification** dialog.
- 3. In the **Rich Text Specification** dialog, click the **Insert Macro M** button.
- 4. Select **Global> Special Characters** to expose a list of special characters available for insert.
